Dear Dr. Rangaraj

Today as I am writing this, I have no words to describe my feelings.

My dream from childhood was to lead a normal life like my friends "WITHOUT GLASSES". I never had a chance to look at shops that sold "SUNGLASSES/GOGGLES" which most of my friends proudly flaunted. I have always been a subject for ridicule because of my glasses.

But after undergoing LASIK SURGERY, my life has changed drastically for the better. The surgery was absolutely "PAINLESS" and once in a lifetime "EXPERIENCE". I would recommend this surgery to all those people who are facing the same lifestyle problems. LASIK has boosted my CONFIDENCE & PERSONALITY.

I take this opportunity to thank Dr. Rangaraj and his team for changing my life forever!

THANKS A TON!

Yours truly

T.V. Chitra
