CHENNAI.

Dear Doctor,

The following is my genuine feedback about the LASIK operation that I underwent last May 7th 2009. I would term it as a 'painless - permanent' cure of my eyesight. My power on both eyes were around -5.50 and -4.50 approx prior to the treatment, and post treatment I'm proud to say a goodbye to my glasses/contacts. My vision is crystal clear now and I absolutely suffer no side-effects from this treatment. I would definitely suggest this treatment to ^{all the} friends of mine for a better lifestyle. My heartfelt thanks to ~~the~~ doctor and team.

P. Vinaya

12th July 2009.
